What is Quinex ?

Quinex is a cryptocurrency investment platform powered by AI-driven arbitrage bots. The system scans more than 15 exchanges and 30 cryptocurrencies in real time, identifying price differences and turning them into daily profits for users.

Founded under the leadership of Sebastian Abrego, Quinex was created to make professional trading strategies simple, secure, and accessible for everyone. With transparent reporting, stable returns, and user-friendly investment plans, Quinex offers a reliable way to grow wealth in the digital economy.

Intro video

Our Vision & Mission

Our Mission

Our mission is to provide a secure, seamless, and efficient platform that transforms the way people grow wealth in the crypto space. By merging innovation with reliability, Quinex empowers users to maximize their returns in a transparent and sustainable way.

Our Vision

Our vision is to become a globally recognized platform where professional arbitrage strategies are accessible to everyone. We aim to build a trusted ecosystem that combines cutting-edge AI technology, transparency, and simplicity—helping people worldwide participate in the digital economy with confidence and long-term success.

Sebastian Abrego (Founder and CEO)

Sebastian Abrego, founder of Quinex, is a financial expert with over 30 years of experience in banking and risk management. Based in Panama, he built a distinguished career specializing in evaluating and minimizing risk while leading teams at senior levels.

In 2017, during the global crypto bull run, Sebastian discovered the world of cryptocurrencies. Fascinated by arbitrage trading — turning price differences across exchanges into profit opportunities — he envisioned a platform where expert knowledge and advanced technology could make this strategy accessible to all.

HOW QUINEX WORKS

What is arbitrage?

Arbitrage is a trading strategy that takes advantage of price differences for the same asset across different exchanges. For example, if Bitcoin is priced lower on one exchange and higher on another, a trader can buy it cheaply and sell it immediately at a higher price, generating a profit from the spread.

What is an arbitrage bot?

An arbitrage bot is an automated program that detects these opportunities and executes buy/sell orders much faster than a human could. Instead of manually monitoring dozens of exchanges, a bot can analyze thousands of price points every second and instantly act on profitable opportunities.

What is the Quinex arbitrage bot?

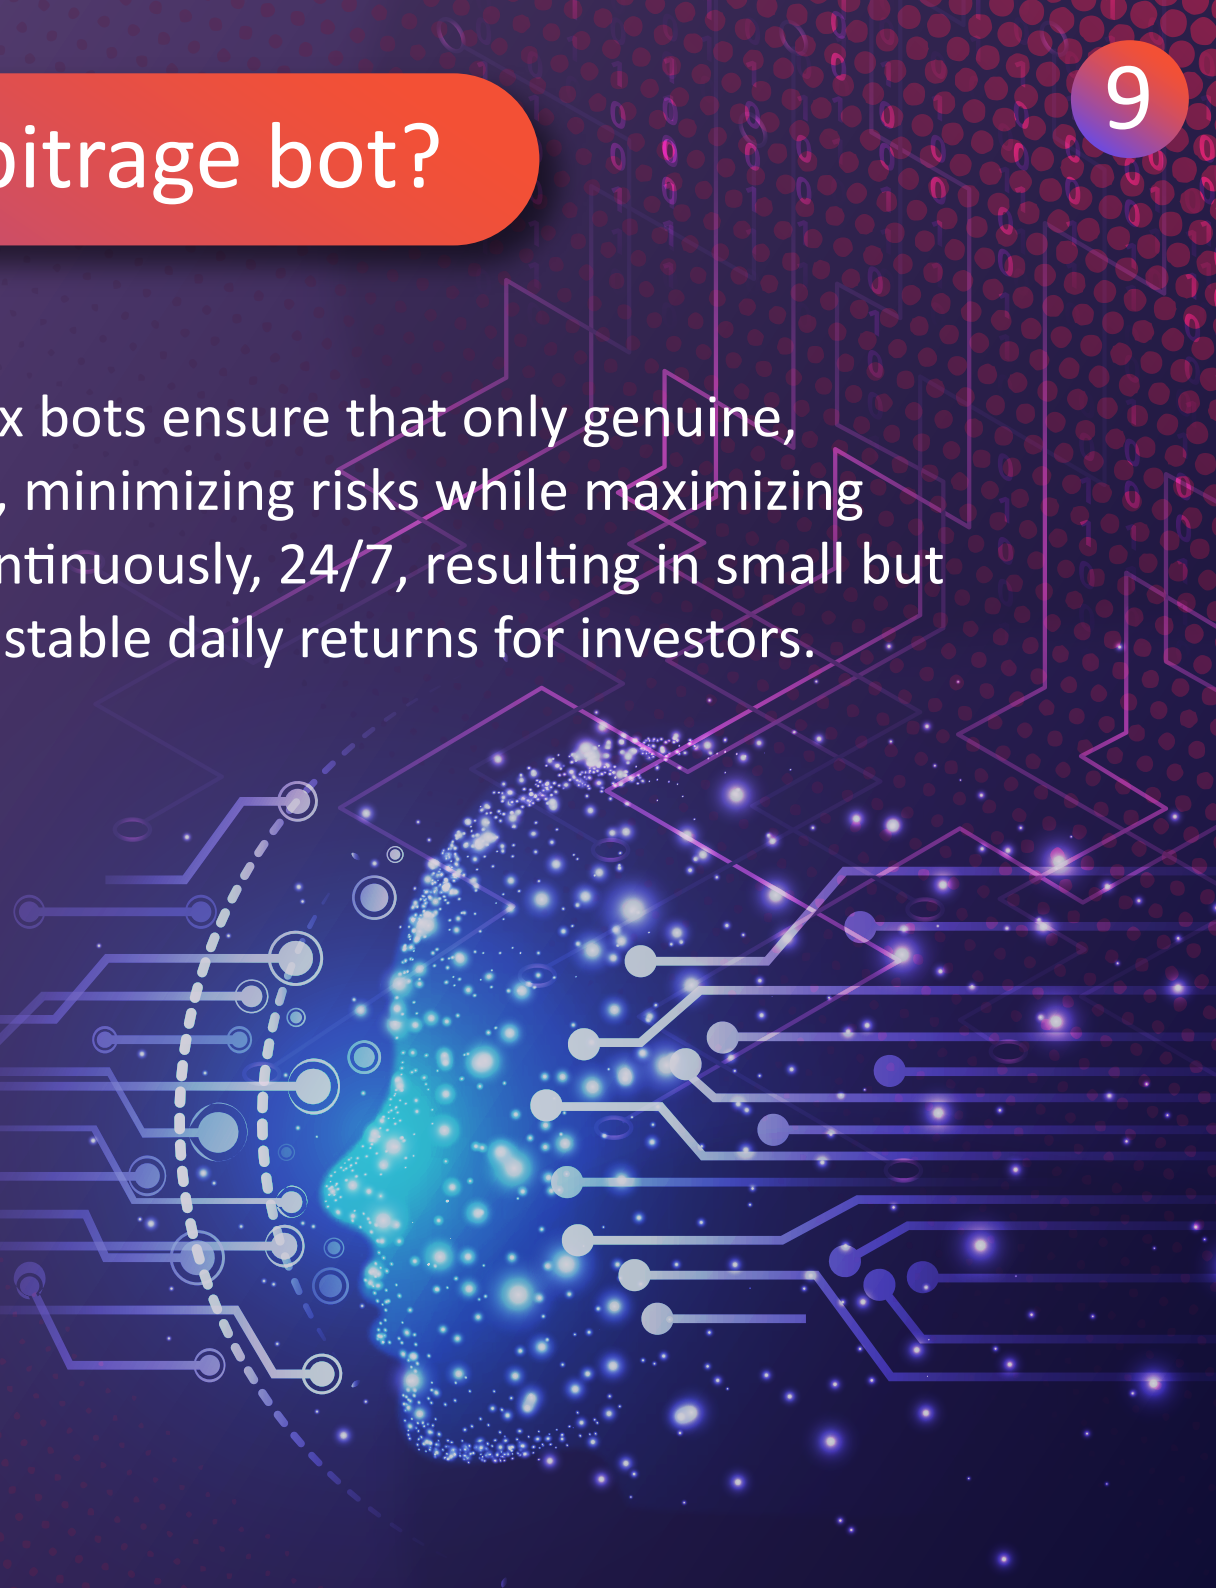

Quinex has developed an advanced two-layer arbitrage bot system designed for both detection and execution:

1. Signal Bot
 - o Continuously scans more than 15 exchanges and 30 cryptocurrencies in real time.
 - o Identifies price differences across exchanges.
 - o If it detects a spread of 0.2% or higher, it immediately signals a potential opportunity.
2. Trade Execution Bot
 - o Receives the signal and evaluates the situation further.
 - o Checks exchange fee structures to ensure the trade is profitable and not canceled out by costs.
 - o If profitable, it instantly places the buy order on the lower-priced exchange and the sell order on the higher-priced one — all within seconds.

What is the Quinex arbitrage bot?

By combining these two layers, Quinex bots ensure that only genuine, profitable opportunities are executed, minimizing risks while maximizing efficiency. This process is repeated continuously, 24/7, resulting in small but consistent gains that accumulate into stable daily returns for investors.

The advantage of Quinex's AI-driven approach is that it removes human limitations such as reaction speed, emotional decision-making, and calculation errors. Instead, every decision is based on mathematical precision, real-time data, and strict profitability checks, ensuring both consistency and sustainability for our users.

You Invest, We Execute

At Quinex, our goal is to make arbitrage trading as simple as possible for our users. We know that not everyone has the time, knowledge, or technical skills to monitor exchanges, analyze markets, and place trades every day. That's why we've designed a system where you only need to invest, and Quinex handles everything else.

When you join Quinex, your journey begins with selecting an investment plan. Each plan differs in duration and potential daily returns:

- Shorter-term plans offer flexibility and quick results.
- Longer-term plans provide higher daily returns as the system compounds stability over time.
- Minimum investment starts at \$100, and the maximum goes up to \$500,000, giving both newcomers and experienced investors plenty of options.

You Invest, We Execute

Once you choose a plan and deposit your funds, our AI-powered arbitrage bots start working on your behalf. You don't need to monitor prices, place trades, or worry about exchange fees — Quinex automates the full process.

Here's how it works for you as an investor:

- **Daily Profits:** Your account balance is updated every day with the profits generated by the arbitrage bots.
- **Principal Return:** At the end of the plan, your initial investment (principal) is returned to you in full.
- **No Hidden Actions:** You don't need to manage or close positions — everything runs automatically in the background. By separating the complex trading execution from the simple act of investing, Quinex makes professional arbitrage accessible to everyone. All you have to do is decide how much you want to invest and for how long — Quinex will take care of the rest, ensuring stable, transparent, and stress-free returns.

Live Arbitrage Transparency

12

Transparency is one of the core principles of Quinex. We believe that every investor should be able to see and verify how the system operates, rather than relying only on promises. That's why we developed the Live Arbitrage page, a dedicated section of our platform that showcases all arbitrage activity in real time. On this page, you will find three powerful tools that give you full insight into how Quinex works:

1. Proof Section (Trade History)
 - o Every single trade executed by Quinex bots is recorded and displayed.
 - o Each entry includes the trade ID, UNIX timestamp, exchanges involved, traded cryptocurrency, and profit margin.
 - o This allows users to independently confirm that real trades are being performed and that profits are genuinely generated from arbitrage.

2. Manual Search

- o Beyond watching Quinex's automated trades, users can also perform their own price difference checks across supported exchanges.
- o By manually entering the cryptocurrency pair, you can instantly see the spreads between exchanges.
- o This tool empowers users to validate arbitrage opportunities themselves and even attempt manual trades if they have balances across exchanges and act quickly.

3. Signals Section

- o In addition to executed trades, the Live Arbitrage page also displays the signals detected by our bots in real time.
- o This gives users a clear picture of how often profitable spreads appear and how the system reacts to them.
- o For extra convenience, these signals are also shared in our Telegram channel, so users can follow arbitrage opportunities even outside the platform.

By combining these three layers of transparency, Quinex ensures that investors are never left in the dark. You can watch how the system functions, check trades for yourself, and track signals in real time. This level of visibility and accountability is what sets Quinex apart from many other investment platforms.

INVESTMENT PLANS

At Quinex, we offer flexible and transparent investment plans designed to meet the needs of both beginners and experienced investors. Each plan is powered by our advanced AI-driven arbitrage bots, which scan over 15 cryptocurrency exchanges and 30 different assets to generate stable daily profits.

Our investment system is structured to reward users based on two main factors:

1. Investment Amount – The higher the amount you invest, the greater your profit potential.
2. Investment Duration – Longer-term plans provide increased returns, ensuring that investors who commit for more days benefit from higher profits.

Unlike traditional trading, Quinex eliminates the need for users to manage trades themselves. Instead, you invest once, and our automated system executes arbitrage opportunities on your behalf, delivering consistent and secure growth.

At the end of each plan, your initial capital is fully returned to your account along with the profits generated. This ensures maximum transparency and confidence for every investor.

With plans ranging from short-term opportunities to longer strategies, Quinex empowers you to choose the approach that best fits your financial goals while ensuring stable, daily income in the dynamic world of cryptocurrency.

How does Quinex generate profits for investors?

Quinex generates profits through AI-powered arbitrage bots that continuously scan more than 15 exchanges and 30 cryptocurrencies in real time. These bots identify price differences across markets and automatically execute trades to capture profit opportunities. This system provides investors with stable and transparent daily returns — without the need for them to trade manually or follow complex strategies.

Who is behind Quinex?

Quinex was founded under the leadership of Sebastian Abrego, a seasoned professional with over 30 years of experience in banking and risk management. Inspired by the potential of cryptocurrency arbitrage during the 2017 bull run, he envisioned a platform that makes professional trading strategies accessible to everyone. Today, Quinex is supported by a dedicated team of specialists in software development, marketing, finance, and crypto markets, all working together to deliver a secure, transparent, and innovative investment platform.

Is Quinex a trading platform or an investment platform?

Quinex is both a trading platform and an investment platform. Behind the scenes, our AI-powered arbitrage bots actively trade across 15+ exchanges to capture profit opportunities. However, for users, Quinex works as an investment platform — you simply make a deposit, and the system handles all trading automatically. This way, you benefit from professional trading without having to manage it yourself.

FAQ

About Quinex

What makes Quinex different from other crypto platforms?

Quinex stands out by combining AI-powered arbitrage technology with a fully automated investment system. While many platforms require users to trade manually or follow complex strategies, Quinex allows investors to earn stable daily profits without any trading knowledge. The system scans 15+ exchanges and 30+ cryptocurrencies in real time, capturing profit opportunities with full transparency. In addition, Quinex offers features like a Game Center for rewards and entertainment, a clear and large partner program, and a strong commitment to security, simplicity, and user trust — making it more accessible and reliable than traditional trading platforms. How transparent is Quinex in showing trading activity?

Transparency is one of Quinex's core values. Our system clearly shows daily profits, active plans, and referral earnings directly in your dashboard, so you always know how your investments are performing. On the Live Arbitrage page, you can view all our trading activity with full details — including trade IDs and UNIX timestamps for each transaction. You can also manually check price differences of cryptocurrencies across 15+ exchanges to verify opportunities yourself. In addition, Quinex provides a dedicated Telegram channel for arbitrage signals, where you can follow real-time trading opportunities and stay updated with the latest signals. This ensures that every investor has full insight and confidence in how our AI-powered bots operate.

Does Quinex have a physical office?

No, Quinex does not currently maintain a physical office. At this stage, there is no need for one, as all of our operations can be carried out entirely online. Our team members are located in different countries, and working remotely allows us to operate more efficiently while keeping the platform accessible to a global audience. In the future, Quinex plans to establish physical offices in different countries, creating opportunities for direct interaction with our community and partners.

FAQ

Investment Plans

What investment plans does Quinex offer?

Quinex offers four investment plans with different durations and profit rates. The 15-day plan provides daily returns between 0.90% and 1.10%, the 30-day plan offers 1.20% to 1.40% daily, the 60-day plan (best choice) yields 1.50% to 1.70% daily, and the 90-day plan delivers 1.80% to 2.00% daily. In Quinex, the longer the plan duration and the higher the invested amount, the greater the daily profit. Investment amounts range from \$100 up to \$500,000, ensuring flexibility for all types of investors.

Is my principal returned at the end of the plan?

Yes, your principal is returned in full at the end of the plan. Throughout the plan's duration, you receive your daily profits, and once the plan expires, your initial investment amount is credited back to your account.

Can I have multiple active investment plans at the same time?

Yes, you can have multiple active investment plans at the same time. This flexibility allows you to diversify your investments by choosing different plan durations or amounts according to your preferences. All active plans and their daily profits can be tracked easily from your dashboard.

How are profits credited to my account (daily/weekly/after expiry)?

Profits from Quinex investment plans are credited to your account daily. You can see your earnings added to your balance every day throughout the duration of the plan. When the plan ends, your full principal is also returned to your account along with the profits you have already received.

FAQ

Deposit & Withdrawal

How can I make a deposit on Quinex?

Making a deposit on Quinex is simple and secure. After logging into your account, go to the "Deposit" section in your dashboard, select the cryptocurrency you want to use (such as USDT, BTC, or ETH), and copy your unique wallet address. Once you send the funds to this address, your deposit will be automatically credited to your Quinex account after blockchain confirmation.

Which cryptocurrencies are supported for deposits?

Quinex currently supports deposits in major cryptocurrencies, including Bitcoin (BTC), Ethereum (ETH), Litecoin (LTC), Dogecoin (DOGE), Ripple (XRP), Binance Coin (BNB), Tron (TRX), USDT (BEP20, TRC20 & ERC20), and Toncoin (TON). We are continuously working to expand the list of supported assets, so more cryptocurrencies will be added in the future.

What are the minimum and maximum deposit amounts on Quinex?

On Quinex, the minimum deposit amount is \$100, while the maximum deposit amount is \$500,000. This range allows both new and experienced investors to participate according to their goals and budget.

How long does it take for my deposit to appear in my account?

Deposits on Quinex are usually credited within a few minutes, depending on the blockchain network confirmation speed. In rare cases, it may take up to one hour if the network is busy. Once confirmed, your funds will automatically appear in your Quinex account balance.

Are there any fees for making a deposit?

Quinex does not charge any fees for making a deposit. However, please note that standard blockchain network fees may apply depending on the cryptocurrency and network you choose (for example, BTC, ETH, or USDT on TRC20/BEP20/ERC20). These fees are not taken by Quinex but by the blockchain itself.

How can I withdraw my funds?

Withdrawing funds from Quinex is quick and simple. Before making a withdrawal, please make sure you have added your wallet address in the Account Settings page. After logging into your account, go to the Withdrawals funds section in your dashboard, select the cryptocurrency you want to withdraw, and confirm the request.

FAQ

Deposit & Withdrawal

27

Is there a minimum withdrawal limit?

Yes, the minimum withdrawal amount is \$10 for all cryptocurrencies. There are no daily limits on withdrawals — you can withdraw as much as you want each day

How long does it take to process a withdrawal?

Withdrawals on Quinex are usually processed within a few hours. In some cases, depending on network congestion or security checks, it may take up to 24 hours for the funds to be confirmed and credited to your wallet.

Are there any withdrawal fees?

Quinex charges a fixed \$1 fee for each withdrawal, regardless of the amount. Users do not pay any blockchain network fees, as these costs are fully covered by Quinex.

Can I cancel a withdrawal request after submitting it?

Yes, a withdrawal request can be canceled as long as it has not yet been approved. You can cancel your pending request from the History page in your account. Once the withdrawal is approved and processed, however, it can no longer be canceled, so please double-check your details before submitting.

Are withdrawals available every day?

Yes, withdrawals can be made every day without any restrictions. There is no limit on how many times you can withdraw — you are free to request withdrawals as often as you like.

FAQ

Partner Program

What is the Quinex Partner Program and how does it work?

The Quinex Partner Program allows users to earn additional income by inviting others to the platform. Through your unique referral link, you can build a team of investors and earn commissions from their investments. As your team grows, you also unlock career levels that provide higher commission rates, access to deeper referral levels, and exclusive cash bonuses. All commissions and bonuses are credited directly to your Quinex account, creating an extra earning opportunity alongside your own investments.

How can I join the Partner Program?

Joining the Quinex Partner Program is simple and free. Every registered user automatically receives a unique referral link available in their account dashboard. By sharing this link with others, you can start building your team and earning commissions and bonuses as soon as your referrals begin investing. No separate registration is required — all Quinex members are instantly part of the program.

How does the referral rank system work?

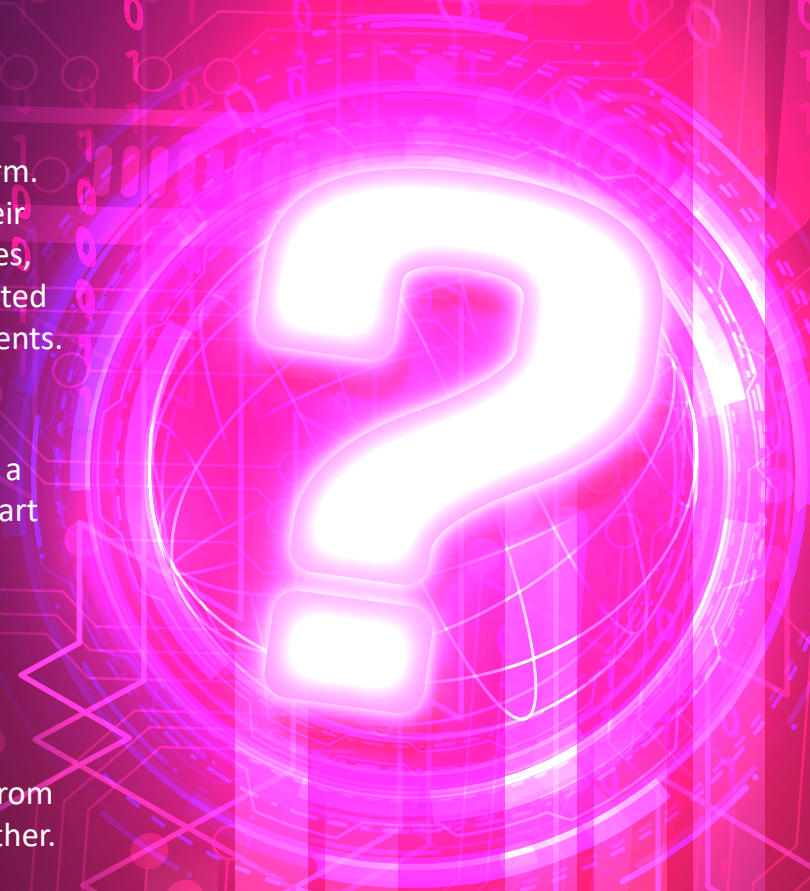

The Referral Rank System in Quinex is based on team investments. As your team's total investment grows, you unlock higher ranks. Each new rank provides access to deeper commission levels and increases the percentage of referral commissions you earn. As new levels unlock, the investments from these additional depths are also included in your total team volume, helping you progress even further.

Are there cash bonuses in addition to referral commissions?

Yes, Quinex offers a Cash Rewards system in addition to regular referral commissions. Cash rewards are based on two factors: your own active investment and the investments of your first-level referrals. Once the required conditions are met, you can claim your reward directly from your account. After your claim, the bonus is credited to your balance within 24 hours in USDT (BEP20). This system provides an extra way to boost your income alongside the standard referral commissions.

When and how are commissions and bonuses paid out?

Referral commissions on Quinex are credited instantly to your account balance every time a referred user makes an investment. These commissions are paid in the same cryptocurrency that your referral used for their investment (for example, BTC, ETH, or USDT). Cash rewards, on the other hand, must be claimed manually once you meet the required conditions. After submitting your claim, the bonus is credited to your account within 24 hours in USDT (BEP20). This way, you always have full control over both your commissions and your cash rewards.

FAQ

Partner Program

29

Is there a limit to how many people I can refer?

No, there is no limit to how many people you can refer on Quinex. You are free to invite as many users as you want through your unique referral link. The more people you invite and the more your team invests, the higher your commissions, cash rewards, and career rank progression will be.

Do I need to make my own investment to earn referral commissions?

No, you do not need to make your own investment to earn referral commissions. You can start earning commissions from your referrals' investments right away, even without an active plan. However, to qualify for cash rewards, you must have your own active investment in addition to your first-level referrals' deposits.

How many levels deep does the referral system go?

The Quinex referral system goes up to 11 levels deep. At the beginning, you can earn commissions from your first 3 levels of referrals. As your career rank increases, more levels unlock, and you can eventually earn commissions from up to 8 levels. This way, you benefit not only from your direct referrals but also from the growth of your entire team network.

Can I track my team's investments and my commissions in real time?

Yes, Quinex provides real-time tracking of your team's investments and your earned commissions. In the "My Team" page, you can view detailed information about your direct and indirect referrals, their active investments, and the commissions generated for you. This ensures full transparency and allows you to monitor the growth of your network at any time.

FAQ

Live Arbitrage

30

What is the Live Arbitrage page and how does it work?

The Live Arbitrage page is a feature that allows users to see arbitrage opportunities in real time while ensuring full transparency. Our system continuously monitors more than 15 exchanges and 30 cryptocurrencies, displaying price differences that can be turned into profit. This page has three main sections: * A trade history section, where all buy and sell transactions executed by Quinex are shared with trade IDs and UNIX timestamps for complete transparency. * A manual search tool, where users can check cryptocurrency price differences across exchanges on their own. * A signals section, where you can follow the latest arbitrage signals detected by Quinex's AI-powered bots. By combining these features, the Live Arbitrage page gives investors both real-time insights into Quinex's trading activity and the ability to explore arbitrage opportunities directly.

Can I see real trade details on the Live Arbitrage page?

Yes, the Live Arbitrage page includes a proof section where you can see all the buy and sell transactions executed by Quinex. Each trade is displayed with full details, including the trade ID, UNIX timestamp, exchange, and cryptocurrency pair, providing complete transparency. This allows users to verify that every opportunity shown is backed by real trading activity.

Can I manually search for arbitrage opportunities between exchanges?

Yes, the Live Arbitrage page features a manual search tool that allows you to check cryptocurrency price differences across more than 15 exchanges and 30 cryptocurrencies. This way, you can verify the opportunities yourself in real time. If you have balances on different exchanges and act quickly enough, you may also perform manual arbitrage trades on your own.

FAQ

Live Arbitrage

Can I verify the trades on external exchanges?

Absolutely! All trade IDs and timestamps are real and can be verified on the respective exchanges' public APIs or trade history. We encourage users to cross-check our data with exchange records to confirm the authenticity and transparency of our arbitrage operations.

Is there a way to receive arbitrage signals outside the Live Arbitrage page?

Yes, in addition to the Live Arbitrage page, Quinex provides a dedicated Telegram channel where you can follow arbitrage signals in real time. This allows you to stay updated with the latest opportunities even when you are not logged into the platform. By combining the Live Arbitrage page with the Telegram signals, investors can always keep track of market movements and Quinex bot activity.

Will there be new features or updates added to the Live Arbitrage page in the future?

Yes, the Live Arbitrage page will continue to evolve with new features and updates. Our team is constantly working to improve transparency and user experience, which may include additional analytics, more exchanges, extra cryptocurrencies, and enhanced trading signals. These updates will be announced in the platform and on our official channels.

FAQ

Game Center

What is the Quinex Game Center?

The Game Center is a section of Quinex where users can play fun games and win crypto rewards in addition to their investment profits. It combines entertainment with extra earning opportunities.

Which games are currently available?

Right now, the Game Center features the Spin Wheel, where users can spin and instantly win rewards in USDT-TRC20.

Which new games will be added in the future?

Our team is working on adding more games, including Aviator, lottery/raffle systems, and Minefield games, along with other exciting options.

In which currency are the rewards paid?

All Game Center rewards are credited in USDT-TRC20 directly to your Quinex account balance.

Can I deposit funds only to play games in the Game Center, independent from investment plans?

Yes, you can deposit funds specifically for playing games in the Game Center. This balance is separate from your investment plans and can be used exclusively for participating in games and winning rewards.

How fair and transparent are the games?

Each game is developed with fair play mechanics and transparent rules, ensuring that users have an equal chance to win.

Will more updates and games be added to the Game Center?

Yes, the Game Center will continue to grow with new games, updates, and reward structures. All updates will be announced on the platform and official Quinex channels.

FAQ

Account & Security

How do I create a Quinex account?

Creating a Quinex account is simple. Go to the official website, click on Sign Up, and fill in your basic details such as your name, email address, password, and country of residence. Once you submit the form, your account will be ready to use.

How can I change my account password?

You can change your password anytime from the Account Settings page. Enter your current password, set a new one, and confirm the change. For better security, we recommend using a strong password that includes letters, numbers, and symbols.

What should I do if I forget my password?

If you forget your password, click on the Forgot Password link on the login page. Enter your registered email address, and you will receive a reset link. Follow the instructions to create a new password and regain access to your account.

Does Quinex support two-factor authentication (2FA)?

Yes, Quinex supports two-factor authentication (2FA). This provides an extra layer of security for your account. To enable 2FA, go to the Security page and follow the steps to connect your account with an authenticator app such as Google Authenticator. Once activated, you will need both your password and a time-based code to log in. You can disable 2FA from the same menu if needed, although we strongly recommend keeping it enabled.

FAQ

Account & Security

Is my personal information safe on Quinex?
